

## **Snow Policy**

Bath Housing's maintenance team's first priority is to remove snow from driveways so emergency vehicles have a clear path. Until the storm ends, they will continue to keep main driveways clear. When the storm ends, they will proceed to parking lots and paths to the buildings.

It is your responsibility to move your vehicle. Each building has a designated individual that will call you to move your vehicle. **Do not move your vehicle until you are called.**

Once you are called, you must move your car as quickly as possible. Failure to move your car makes plowing very difficult and inhibits the ability to clear the parking lot. If you do not move your vehicle when called, it may result in your car being plowed in. In this case, it is your responsibility to shovel your vehicle out. Bath Housing will not make exceptions to this policy. All residents are responsible for cleaning their vehicles and immediate area around their vehicles.

Dike's Landing, the Moorings and Seacliff Floral Street have salt in the front lobby for use on the walkway at your discretion. Please inform the office when it gets low so it can be replenished.

All other residents are responsible for removing snow and ice from their own immediate steps and walks. **When maintenance staff is available they will do it for you, but you should have patience.** Residents should keep their own ice melt at their apartment for use on steps and walks.

As always, contact the office if you have any questions.

**Please keep this notice handy through the winter months to refer back to.**
